***Eyes:** Here's the [best](#) visual illusion of 2009. Also, I'm now blind.

***Sports:** [Air sex](#) is like air guitar, but without a woman. Or a man. Your choice. Or both, I guess? However you swing. Or whatever. [[what?](#)]

***Books:** [We Love You So](#) is a blog for the movie "Where the Wild Things Are." [[popcandy](#)]

***Icons:** Rob Walker's [gallery of anonymity](#) – featuring the default icons from social networking sites from across the web – is growing. I will always be a toilet. Even when I'm not yet a toilet. Or not currently a toilet. What?

***History:** Learn your lesson – How they [dealt](#) with credit crunches in the Middle Ages. Have I told you lately that I'm deleveraging? Not as fun as it sounds.

***Music:** A concept, a book, an album. [NPR](#) on Danger Mouse's, Sparklehorse's, and David Lynch's (among others) "[Dark Night of the Soul](#)."

***Day job:** This [one](#) is from my day job, but still interesting (WUCKA!) – The Boobox is a vending machine that gives away free samples.

***Internet:** This [bookmarklet](#) allows you to see the web in Kanye West vision. [[filter](#)]

***Today's links:** Lowercase d. It's that fucking low.
