## Best Visual Illusion of the Year Contest

**Sarasota, Florida    May 12, 2007**

some images courtesy of Barrow Neurological Institute

Before the above contest occurs, you might want to look at last year's top ten finalists (2006). The First Prize Winner is quite unusual...watch the full video to get both the effect and underlying mathematical explanation.

You can access the [ten entries here](#), browse the rules, or look at the 2005 entries as well.
